

QUESTIONS OF THE ONLINE FORM

This document allows you to view the questions on the form in order to submit your challenge.

>> Please fill in the form in English.

- Welcome to the Ocean Hackathon® challenge submission platform, edition of your city.

Thank you for your interest in Ocean Hackathon® 2026. We would like to hear from you about any ideas or challenges you would like to submit during the Ocean Hackathon® event taking place from 16 to 18 October 2026.

It could be a more or less advanced idea that you are already working on or would like to develop, or a problem that you have identified. The important thing is that you explain clearly what you have in mind.

Deadline: May 30, 2026

- Note about the information recorded on this form :

The data you provide is for the exclusive use of the Ocean Hackathon® organisers. The purpose of the data processing is to register, monitor and manage your participation in the event. The legal basis for the processing is the contract represented by your adherence to the Ocean Hackathon® rules and your consent expressed by filling in the form. The data is not passed on to third parties and is not kept beyond the period stipulated by the regulations in force.

In application of the regulations, you have the right to access, rectify, delete and limit the information concerning you, and you may also, for legitimate reasons, object to the processing of data concerning you, by providing proof of your identity in writing by email to the following address: contact@campusmer.fr

- All information will be published in the challenge catalogue, unless otherwise stated.
- As Ocean Hackathon® is international, we ask you, as far as possible, to please write your answers in English. Thank you for your understanding.

Question 1) Your first name

Question 2) Your last name

Question 3) Your email contact

- Q) On-board communication
- R) Other

8.E) Share your own themes with us.

Insert a semicolon between each word, maximum 4 keywords.

8.F) Upload an image that best represents your challenge.

You must have the rights to this image, or choose a royalty-free image. Depending on your web browser, the image may not download correctly. Make sure you choose your browsing mode correctly and clear your cookies.

8.G) What is the photo credit for the image?

8.H) In practice, what do you want to develop over 48 hours?

For example, a mobile application, a digital or interactive tool, a game, a database, an information system, an algorithm, etc...

8.I) A team can range from 3 to 8 people. Have you already identified team members who might be interested in joining your challenge?

Yes/No

8.J) What skills are essential in your team?

This question enables team members to identify with one or more of the skills that will help them choose the challenge.

E.g. data analyst, IT developer, oceanographer, socio-economist, geomatics engineer, marine biologist, etc.

Question 9) Dataset

The following questions concern both the data you want to make available during the event and the data you would like to have available. This information will not appear in the catalogue.

9.A) Will you be bringing your own data with you over the weekend? Yes/No

9.B) Describe your data.

9.C) What data would you need to complete your challenge?

Describe in detail the data you need so we will be able to help you find it.

9.D) In which geographical area would you like to concentrate?

Thank you for your comprehensive response.

Question 10) Do you think you need tools for processing data sets and the like?

If so, please tell us which ones.

Question 11) You must be present and available in your city from 16 to 18 October 2026 included.

Question 12) You must accept the Ocean Hackathon® 2026 [rules](#).

Thank you very much for your participation. We will contact you at the end of the call for challenges.

If you have any questions or requests, please contact : → Adviser email address (on the city page of the website [Ocean Hackathon®](#))
